## Project Description:

Colored Glasses is an educational project of Youth for Understanding Germany which aims to reach young people with a message of appreciation of cultural diversity and international cooperation. As a nonprofit association YFU Germany is organizing long-term and educational youth exchange for over 60 years and is therefore promoting tolerance and international understanding. The aim of Colored Glasses workshops are to allow young people to examine their own attitudes towards their own cultures as well as other cultures, and to gain an understanding of issues such as culture and identity, intercultural communication, stereotypes, prejudice, discrimination and inequality, human rights and responsibility, in order to develop their intercultural and global citizenship competences. Colored Glasses workshops are conducted with school pupils, youth clubs or other relevant youth organizations. Colored Glasses use the approach and values of non-formal education and promote peer-to-peer learning. The workshops are open to everyone and especially for those who do not have the chance or possibility to go on a youth exchange by themselves.
